

Executive Summary Prepared by: Cameron Naidoo | Date: 28 June 2026**Risk Posture: CRITICAL**

GreenLeaf has 5 identified risks: 3 Critical, 1 High, 1 Medium. Average inherent risk score: 17.4/25. Average residual risk: 15.8/25. Existing controls are insufficient—immediate executive action required.

Priority

#1 GR-005 GDPR Compliance – No Privacy Policy, no Cookie Banner, no Erasure process. Potential fines: €200,000+. 26 Aug 2026 Not Started

#2 GR-003 Business Interruption – No tested offsite backups. Ransomware could halt sales for 7+ days. 23 Sep 2026 Not Started

#3 GR-001 Unauthorized Access – No MFA on admin accounts. Credential theft exposes all customer data. 23 Jul 2026 In Progress

Total Risks 5 = Critical Risks 3 = Risks Under Active Mitigation 1 = Risks Needing Budget Approval 3

Immediate Actions Required (Next 30 Days)

CEO: Engage privacy lawyer within 7 days for GDPR compliance (GR-005).

CTO: Enforce MFA on all admin accounts immediately – zero cost (GR-001).

CFO: Approve \$500/month budget for immutable cloud backups (GR-003).

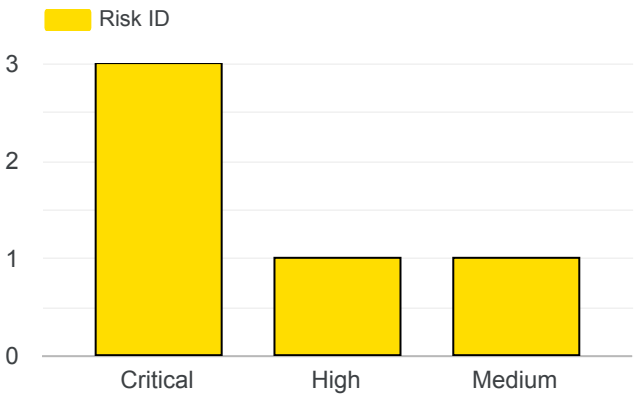

HR: Procure security awareness training platform within 14 days (GR-004).

All: Schedule quarterly risk review meeting with CTO, CFO, and Head of People

Conclusion

The three Critical risks threaten GreenLeaf's legal standing, financial health, and operational stability. GR-005 (GDPR) represents the highest exposure and must be addressed as the top priority. This dashboard will be re-assessed monthly.
